

Get creative with Cornerstone OnDemand

Customize the look & feel, add new functionality, and promote your HR initiatives. We transform your business needs into enhanced talent and learning experiences.

In the past 8 years, we've helped 81+ global teams from organizations like BMW, Bosch, Henkel, Electrolux, Deutsche Post DHL, and McDonald's in 250+ unique projects to improve the talent and learning experience of their 20+ million user.

Making sure your employees love working with Cornerstone OnDemand and other web-based SaaS, has a tremendous effect on your overall ROI. Typically, you only need to add a fraction of your investment to make those solutions truly yours.

Octily can help you create your very own welcome pages, individual career sites, beautiful forms, processes, and tasks. We support you in creating captivating communications to embrace the change, communicate the benefits, and pull in your audience.

"Sometimes our clients have requirements that just go beyond what Cornerstone can do. In those cases, we turn to Octily, and with their help make the impossible... possible."

We're nimble, effective, passionate, curious, personal, and 100% remote.

We're Octily.

Our roots in HR software development reach back more than 21 years. Our team spans from Berlin, Germany to San Francisco, USA, and Singapore. We are firm believer in remote work. We don't waste our resources on prestigious headquarters. We keep our environmental footprint small. We are curious to learn something new every day. And we love to regularly tweak our processes to get better, and better, and better, and better, and better.

But all of this doesn't make us any special. We're regular people just like you, who live their life and deliver quality work in between. We neither fancy pompous job titles, nor incredibly complex hierarchies. We're only humans after all, and we treat everyone we meet the same.

We're always looking for bright minds – from administration generalists and project managers, to frontend developers and quality assurance
