

**Eagle Plains
Resources Ltd.**

RICHARDS LAKE PROJECT

Projection - NAD 1983 UTM Zone 13N
Date - Feb 2024
Nominal Scale - 1 : 75 000

Unconformity intersected at 382m

Robillard Fault

Lake Athabasca Winter Road ~ 12 kms

ALX Resources - Sabre Uranium Project

Initially identified in 2005 regional MegaTEM survey. Ground TDEM by UEX in 2007 identified priority conductors with 3 areas recommended for drilling. No drill testing completed to date. Depth to UC estimated at 450-500m.

Highest priority drill target

RICHARDS LAKE PROJECT - 1317 Ha.

Atha Energy - North Pinnacle Project

Strong conductive trend identified and recommended for additional ground surveys before drilling

Richards Lake

- ★ Priority Drill Target
- Historic DDH Compilation
- ~ Priority Conductors - 2007 TDEM
- - - Major Regional Faults
- ⬮ Athabasca Basin Margin
- ⬮ Eagle Plains Resources Ltd. 100%
- ⬮ Mineral Dispositions - Other
